

**University Mission**

(March 2006)

**Preamble**

Oregon State University is a comprehensive, public, research-extensive university and a member of the Oregon University System serving as the state’s land-, sea-, space- and sun-grant institution - one of only two universities with such designation in the country. OSU programs and faculty are located in every county of the state and are dedicated to investigating the state’s greatest challenges. OSU considers the state of Oregon its campus and works in partnership with the P-12 school system, Oregon community colleges and other OUS institutions to provide access to high quality educational programs. Strong collaborations with industry and state and federal agencies drive OSU’s research enterprise.

**Mission Statement**

As a land grant institution, Oregon State University promotes economic, social, cultural and environmental progress for people across Oregon, the nation and the world through our graduates, research, scholarship and engagement activities.
