OUS Diversity Report 2004
Addressing the Needs of An Increasingly Diverse Society

Executive Summary

For several years, the Oregon University System (OUS) has worked to enlighten State Board of Higher Education members, university populations, and the general public about the importance, appropriateness, and dynamics of higher education diversity efforts. Annually, the Board receives an update of initiatives, relevant state and national trends, and progress made toward enhanced OUS racial/ethnic diversity. The purposes of the 2004 OUS Diversity Report are:

1 – to inform the newly configured State Board of Higher Education about the broad scope of diversity issues within OUS
2 – to provide an overview of current university initiatives that support diversity considerations within the missions of public higher education
3 – to monitor the progress made in enhancing the diversity of students, faculty, and staff within OUS (Note: A comprehensive data review of OUS progress was conducted in the 2003 OUS Diversity Report Student, Faculty, and Staff Racial/Ethnic Diversity: A Retrospective of Five- and Ten-Year Progress. The current report includes an update of the related data.)

The report includes an overview of the relevance of diverse educational environments and descriptions of the current initiatives within OUS to enhance the representation, inclusion, and engagement of diverse racial/ethnic populations. The issues associated with higher education diversity are multifaceted. Within OUS, the vision for diversity is a comprehensive and ongoing consideration that extends beyond mere numeric representation. Initiatives relating to representation seek to provide opportunity, enhance campus environments, and fulfill the mission of public higher education institutions as dynamic establishments that support surrounding communities and guide the production and attainment of knowledge that moves society forward. Activities that promote inclusion and engagement (i.e., quality of experience) seek to create environments that are progressive and responsive, provide benefits for all OUS populations, and that celebrate the achievements and contributions of all participants.
