Reduction Options to be Provided to Legislative Fiscal Office

In September, the Legislative Fiscal Office (LFO) requested all agencies to prepare several budget reduction options to be available to legislative leadership and the Joint Committee on Ways and Means for consideration during the February 2012 session. The due date for those reduction scenarios is November 14, 2011. Campuses and statewide public services provided information on possible scenarios and the attached LFO forms contain the compilation of suggested options.
