Preparation for College: Questions for Discussion

1. How will changing student demographics affect college preparation needs and directions?
   - Increases in diverse populations
   - Adult learners
   - High school students increasingly focused on going to college

2. Is Oregon sufficiently focused on enabling all students to have the opportunity to prepare for college?

3. What is the extent to which we align performance standards and student learning in K-12 with college entry?

4. What is the Board’s role with respect to student preparation in the K-12 and community college sectors?

5. What is the Board’s role in defining and monitoring OUS admissions policy?

6. How does the Board help students and their families anticipate and plan for the costs of college?

7. What issues do we need to frame for the more detailed July discussion? Is there specific information needed?
