

University Mission

(Approved by the Board in December 1999)

Preamble

The University of Oregon is a comprehensive research university that serves its students and the people of Oregon, the nation, and the world through the creation and transfer of knowledge in the liberal arts, the natural and social sciences, and the professions. It is the Association of American Universities flagship institution in the Oregon University System. The following statement describes the mission of the University of Oregon and the ways in which it contributes to the Oregon University System.

Mission Statement (summarized)

The University is a community of scholars dedicated to the highest standards of academic inquiry, learning, and service. Recognizing that knowledge is the fundamental wealth of civilization, the University strives to enrich the public that sustains it through: (1) a commitment to undergraduate and graduate education...; (2) a recognition that research, both basic and applied, is essential to the intellectual health of the University, as well as to the enrichment of the lives of Oregonians...; (3) the establishment of a framework for lifelong learning...; (4) the integration of teaching, research, and service as mutually enriching enterprises...; (5) ...welcoming and guiding change rather than reacting to it; (6) dedication to the principles of equality of opportunity...; (7) a commitment to international awareness and understanding...; (8) ...freedom of thought and expression...; (9) cultivation of an attitude toward citizenship that fosters... the wise exercise of civic responsibilities and individual judgment; and (10) a continuing commitment to affordable public higher education.

Carnegie Classification (2005): Research/High Research Activity

Accreditations and Affiliations

- Northwest Commission on Colleges and Universities
- National Association of Schools of Art and Design: Art and Design
- The Association to Advance Collegiate Schools of Business: Business and Management, Accounting
