STATE BOARD OF HIGHER EDUCATION
MINUTES OF MEETING HELD AT
COLLEGE CENTER BUILDING, PORTLAND STATE COLLEGE, PORTLAND, OREGON

December 13, 1960

MEETING #291-1 A regular meeting of the State Board of Higher Education was held at the College Center Building, Portland State College, Portland, Oregon, on December 13, 1960.

ROLL CALL

The meeting was called to order at 10:00 A.M. by the President of the Board, Mr. Henry F. Cabell, and on roll call the following answered present:

Mr. J. W. Forrester, Jr. 
Mr. Allan Hart
Mrs. Cheryl S. MacNaughton

Dr. Ralph E. Purvine
Mr. Wm. E. Walsh
Mr. Henry F. Cabell

Absent: Mr. A. S. Grant, Mr. Chas. R. Holloway, Jr., and Mr. Douglas McKeen.

Others Present: Chancellor J. R. Richards; Secretary E. M. Pallett; President A. L. Strand of Oregon State College; Acting President W. C. Jones of the University of Oregon; President B. P. Millar of Portland State College; President R. E. Lieuallen of Oregon College of Education; President E. N. Stevenson of Southern Oregon College; President F. B. Bennett of Eastern Oregon College; Dean D. W. E. Baird of the University of Oregon Medical School; Dean H. J. Noyes of the University of Oregon Dental School; Director W. D. Purvine of Oregon Technical Institute; Dean J. W. Sherburne of the General Extension Division; Dean M. Popovich of Oregon State College; Mr. W. A. Zimmerman, Assistant to the Dean and Business Manager, University of Oregon Medical School; Mr. G. M. Robertson, Business Manager, Oregon State College; Mr. E. A. Stebbins, Director of Business Affairs, Oregon College of Education; Comptroller H. A. Bork; Budget Director R. L. Collins; Mr. J. I. Hunderup, Assistant to the Comptroller; Mrs. Wickes Beal, Director of Information; Mr. Wolf von Otterstedt, Special Assistant Attorney General; and Dr. Hester Turner, Director of Professional Services and Executive Secretary for Oregon Higher Education, Oregon Education Association.

RE ABSENCES

Mr. Grant was absent due to illness and Mr. Holloway and Mr. McKeen were absent for business reasons.

MINUTES APPROVED

The Board voted to dispense with the reading of the minutes of the last regular meeting, held on October 25, 1960, and approved them as printed in the docket. The Board also voted to dispense with the reading of the minutes of the special meeting held on November 22, 1960, and approved them as printed in the docket.
Mr. J.W. Forrester, Jr., Chairman of the Building Committee, presented the following report:

"At the July and September 1960 Board meetings, approval was given to the leasing of three acres of land located west of the Mall on the Oregon State College campus to the Federal government to provide a site for a Western Forest Biology Laboratory.

"Yesterday, representatives of the Federal government described the proposed main building to be constructed on the site, the time schedule that is to be followed in the construction program, and the research program that is to be conducted after the building is completed. The main building to be constructed eventually will consist of about 28,620 square feet; in addition, outside buildings, including greenhouses, insectary, etc., will amount to 5,000 square feet. The main building is to be of wood and stone to exemplify materials of this region. The roof structure will be of glu-lam beams and interior wall units will be sandwich type honeycomb curtain wall with faces of western soft woods and hardwoods. Exterior walls units will be sandwich panels of honeycomb or conventional frame with a band resaw of redwood or cedar. Utilities, such as steam, gas, water, sewers, will be connected to existing College facilities. The eventual total cost of the construction and equipment for all buildings is estimated at $1,500,000. Bids will be received on or before February 15, 1961, for the first stage of construction of the main building.

"The program to be conducted in the main building will consist primarily of basic biological research to develop principles for general application. The work will cover insect research, disease research, physiological research on trees and range plants. The staff of the laboratory eventually will number approximately 88 persons, including 2 administrative, 65 technical, and 21 service and custodial employees. The eventual annual operating budget is estimated at $610,000.

"The Committee expressed appreciation to the representatives of the Federal government for their courtesy in bringing the details of the project to their attention."

The Board adopted the report as presented.

Mr. Forrester continued:

"On September 13, 1960, the Board authorized the appointment of Architects Burns, Bear, McNeil & Schneider; Bloodworth & Hawes, Associate Architects, to prepare preliminary plans for a dormitory at Oregon College of Education estimated to cost $630,000.

"Yesterday, President Lieuallen and the architects presented a site plan for the proposed building which will accommodate 150 students. The structure will be located north of Maaske Hall and will consist of three floors plus a partial basement, providing a gross area of approximately 32,000 square feet. The design contemplates that the
Meeting #291-3

December 13, 1960

Building will consist of two wings, one measuring about 38 by 110 feet and the other about 38 by 123 feet, with some overlapping where they adjoin. The main entrance will be on Monmouth Avenue. Student residents will obtain food service at the recently completed Student Center-Commons Building.

"With the concurrence of the Chancellor, President Llewellyn recommended the approval of the site plan and requested that authorization be given to the Board's Office to instruct the architects to proceed with the development of preliminary plans for the residence hall.

"The Committee concurs in the recommendation presented."

The Board adopted the report and authorized the recommendations presented.

Mr. Forrester continued:

"Yesterday, a report of male student enrollments and married student housing data was distributed and discussed. The complete report as presented is included in these minutes as Supplement A, beginning on Page 482. The information was patterned after that reviewed at the December 8, 1959, meeting, and included data concerning the need for family housing at the six institutions which provide facilities for married students. For the fall term of 1960, approximately 24 per cent of the male students were married. It was stated that 22 per cent of the total married male students enrolled were living in institutionally-owned housing facilities.

"There was discussion concerning the number and condition of housing units available for married students on the various campuses. Members of the Committee recommend that a study be undertaken to determine the need for and the economic feasibility of constructing married student housing facilities on the campus of the University of Oregon Medical and Dental Schools, with a report thereof to be presented at a future meeting of the Board. Consideration was also given to the possible appointment of an architect to assist the staff of the Medical and Dental Schools in making this study, particularly in estimating construction costs."

The Board adopted the report and authorized the recommendations presented.

Mr. Forrester continued:

"Included in the proposed list of self-liquidating projects to be constructed during the 1961-1963 biennium is a married student housing project of 17 units at Eastern Oregon College. The total project is expected to cost about $150,000, of which approximately $104,500 represents the direct construction costs."
"President Bennett reported that the existing EOCENE Court contains 41 units of temporary construction, and proposed that arrangements be initiated to construct 17 new units, to be located in the same area as EOCENE Court at the east edge of the campus, with the understanding that whenever there is a reduction in the demand for apartments there be a gradual removal of the existing temporary apartments. He indicated that his priority plan for occupancy of the new units was in descending order, meeting the requests of graduate students, seniors, juniors, etc., and employees.

"President Bennett, with the approval of the Chancellor, recommended the appointment of Wesley B. Korman, Pendleton, to serve as architect for the project and that he be authorized to prepare preliminary plans. The fee is to be 5.5 per cent of the direct construction costs. Included in the total fee are all engineering consultant costs and 1.0 per cent for the preparation of preliminary plans. Funds for the preparation of preliminary plans amounting to $1,045 are to be provided from married student housing account balances available at the institution.

"During the discussion of this matter, members of the Committee indicated that as a general policy at all of the institutions, if there were a choice between various types of projects to be undertaken, the greatest emphasis should be placed first upon providing living accommodations for single students, then for other facilities such as student centers and health services, and thereafter for family housing. If married housing units were to be provided, the need therefor should be based principally on the requirements for graduate students, particularly graduate assistants and fellows, rather than for undergraduate students. It recognized, however, that at the regional colleges a significant portion of the undergraduate student body might be older and more mature than at the other institutions. Consequently, there would be merit in helping to meet the housing need for such students. It was concluded that it might be appropriate to plan for the replacement of the existing temporary facilities for married students at the regional colleges without increasing the total number of such housing units ultimately expected to be available.

"The Committee recommends that the expressed occupancy policy for Eastern Oregon College be approved and that authorization be given to undertake the preliminary architectural planning for the 17-unit project, with due recognition being given to the attitudes and policies expressed above."

The Board adopted the report and approved the recommendations as presented, with the understanding that the expressed policies regarding married student housing would be followed.
Mr. Forrester continued:

"At the special meeting of the Board held in Eugene on November 22, 1960, authorization was given to prepare plans and specifications for 52 apartments for married students at Westmoreland Village, University of Oregon. Authorization to receive bids and award construction contracts within the total approved construction budget of $415,000 was deferred until the December meeting when a report was to be made covering the married housing situation at all of the institutions.

"Yesterday, the comprehensive report was presented, and the need for these additional units at the University of Oregon was demonstrated. Acting President Jones, with the concurrence of the Chancellor, recommended that authorization be given to receive bids and award construction contracts.

"The Committee concurs in the recommendation."

The Board adopted the report and authorized the recommendations as presented.

Mr. Forrester concluded the report of the Building Committee with the following:

"At the special Board meeting held in Eugene on November 22, 1960, action was taken to approve the developmental scheme for Dormitories Nos. 6 and 7 and to approve preliminary plans for Dormitory No. 7, including a central kitchen. In addition, authority was given the Board's Office to direct the architects to proceed with the preparation of final plans for Dormitory No. 7 and the central kitchen, contingent upon approval by the Eugene City Council of the request by University officials to close Columbia Street between East Fourteenth Avenue extended and East Fifteenth Avenue.

"Yesterday, Acting President Jones advised the Committee that the time required to vacate lawfully the street and alley necessary to permit construction will be greater than was originally expected. The first legal steps have been taken by the City Council and no difficulty is anticipated, but final action is not now expected before late January or early February, 1961. In order to prevent delay in the construction of Dormitory No. 7 and the central kitchen, it is proposed that the Board's Office be authorized to direct the architects to proceed with the preparation of final plans and specifications for these buildings prior to the final formal vacating action by the City of Eugene. If future vacating developments are adverse and it is decided not to build on the site as presently contemplated, modifications will need to be made in the final plans. The amount that will be required for these modifications will not exceed $7,500. The architects will endeavor to plan for those building areas which will be least affected by possible change in site, thereby keeping the potential additional cost at a minimum.
"Acting President Jones, with the concurrence of the Chancellor, recommended that the Board's Office be authorized to instruct the architects to proceed immediately with the preparation of final plans and specifications for Dormitory No. 7 and Central Kitchen with the understanding that if it is necessary to change the site the additional cost of architectural services will not exceed $7,500. Funds for the payment of architectural services are to come from the University Dormitory Balances.

"The Committee, with the endorsement of the Finance Committee, recommends approval of the proposals as presented."

The Board adopted the report and authorized Board officials to instruct the architects to proceed with final plans for Dormitory No. 7 and the Central Kitchen under the conditions specified in the recommendation by President Jones as outlined in the above report.

Mr. Wm. E. Walsh, Chairman of the Finance Committee, presented the following report:

"It was reported to the Finance Committee yesterday that the balance in the Board's Reserve for Land Purchases and Plant Rehabilitation for the current fiscal year will be exhausted following purchases of land required now as sites for Dormitories Nos. 6 and 7 at the University of Oregon. This means that during the remainder of the current biennium the Board probably will not be able to finance purchases of land within the projected campus boundaries, even though such properties may be offered at reasonable prices.

"Accordingly, the Committee recommends that the Chancellor be instructed to advise the institutional executives that funds will not likely be available during the remainder of the fiscal year 1960-61 to purchase land within the approved projected campus boundaries. The Committee recognizes that these circumstances may make it necessary for the Board to pay higher prices for certain parcels of land during the next few years, especially if improvements are added to the land before it can be acquired."

The Board adopted the report and approved the recommendation as presented.

Mr. Walsh continued:

"Yesterday, the Chancellor presented recommended budgets for the 1961 summer sessions at six institutions in the System. The budgets as proposed aggregate $889,440 with $583,304 or 66 per cent estimated to be provided from student fee income, and $306,136 or 34 per cent to be provided from the Board's general funds. This total includes the continuation of the $25,000 summer session contingency reserve. The total recommended summer session budgets for 1961 exceed the original budgets approved for the 1960 sessions by $68,255, which is required to care for the estimated increase in enrolment of regular summer session students."
'The estimated student enrolments and the proposed budgets for each institution are as follows:

"It is understood that the recommended budgets indicated above may be increased for any self-sustaining workshops and conferences which develop before the 1961 summer sessions are completed.

"The Finance Committee recommends approval of the 1961 summer session budgets as presented by the Chancellor."

The Board adopted the report and approved the 1961 summer session budgets as presented.

Mr. Walsh continued:

"Yesterday, distribution was made of two schedules of bond borrowing data. The first identified each proposed self-liquidating construction project for two years with the estimated cost of each and the sources of funds for financing. The second schedule depicted the required maximum amount of outstanding bonds to finance the projects. The following summarizes the program:

1. The total estimated requirements for self-liquidating construction projects for the next two years is $10,853,000.

2. Of said total, $895,000 is to be provided from balances and $9,958,000 from the sale of bonds.

3. If bonds were sold publicly at the present time, it is likely that the interest rate would approximate 3.4 per cent. If bonds were sold to the Housing and Home Finance Agency of the Federal government prior to July 1, 1961, the interest rate would be 3.5 per cent.

Since the initial borrowing will probably not occur until the spring of 1961, it is possible that during the interim the market rate of interest for higher education bonds might increase. Such an increase could result from national financial and economic developments and also might result with the scheduled sale during January 1961, before issuance of higher education bonds, of a substantial amount of State of Oregon Veterans Home Loan Bonds, and a
similar sale of such bonds a few months after the contemplated higher education sale. Consequently, it is planned that of a total initial borrowing of $7,200,000, approximately $5,000,000 would be obtained from either a public sale of bonds or from the Housing and Home Finance Agency at 3.5 per cent, with the remainder of about $2,200,000 to be sought from a public bond sale. In addition, it is intended to sell $2,758,000 of bonds early in 1962.

4. The present statutory limitation on outstanding General Obligation bonds of higher education is $24,000,000. In order to finance the construction program, and giving effect to the amount of bonds presently outstanding and to be retired in April 1961, a statutory new ceiling of $33,600,000 is recommended to be sought of the 1961 Legislature.

"The Committee endorses the program and recommendation as presented, recognizing that modifications may be required as developments occur.

The Board adopted the report and approved the program and recommendations as presented, with the understanding that modifications may be required.

Mr. Walsh continued:

"Yesterday, there was review of a program for the construction and financing of self-liquidating projects for the next two years. As part of the financing program, application is to be made now to the Housing and Home Finance Agency of the Federal government for a loan or loans which would approximate a total of $5,000,000, presently estimated to consist of the following:

<table>

"To comply with Federal government requirements, the Committee recommends that the following resolution be adopted:
RESOLUTION AUTHORIZING FILING OF APPLICATIONS WITH THE UNITED STATES OF AMERICA FOR A LOAN OR LOANS OF A TOTAL OF APPROXIMATELY $5,000,000 TO FINANCE THE CONSTRUCTING, EQUIPPING AND OTHER COSTS OF DORMITORIES AND RELATED DINING FACILITIES AT EASTERN OREGON COLLEGE, OREGON COLLEGE OF EDUCATION, OREGON STATE COLLEGE, AND THE UNIVERSITY OF OREGON UNDER THE TERMS OF TITLE IV OF THE HOUSING ACT OF 1950, PUBLIC LAW 475, 81st CONGRESS OF THE UNITED STATES, AS AMENDED

WHEREAS, the Oregon State Board of Higher Education, herein called the 'Applicant', on behalf of Eastern Oregon College, Oregon College of Education, Oregon State College, and the University of Oregon, after thorough consideration has hereby determined that the construction of certain public works generally described as a dormitory addition for Eastern Oregon College, La Grande, a dormitory for Oregon College of Education, Monmouth, a dormitory for Oregon State College, Corvallis, and two dormitories with related dining facilities for the University of Oregon, Eugene, are desirable and in the public interest and to that end it is necessary that action preliminary to the financing and construction of said works be taken immediately; and

WHEREAS, under the terms of Public Law 475, 81st Congress, as amended, the United States of America has authorized the loaning of moneys to aid in financing the cost of constructing and equipping dormitories and related dining facilities; and

WHEREAS, the Applicant has examined and duly considered such Act and the Applicant considers it to be in the public interest and to its benefit to file applications under said Act and to authorize other action in connection therewith;

NOW, THEREFORE, BE IT RESOLVED BY the Oregon State Board of Higher Education, the Applicant, as follows:

1. That the construction of said public works is essential to and is to the best interests of the Applicant, and to the end that such construction may be provided as promptly as practicable it is desirable that action be undertaken immediately;

2. That H. A. Bork, Comptroller, be hereby authorized to file, on behalf of the Applicant, applications (in form required by the United States and in conformity with said Act) for a loan or loans in the amount of $5,000,000, increased or decreased as circumstances dictate, to be made by the United States to the Applicant to aid in the financing of the above described construction, which shall consist generally of a dormitory addition for Eastern Oregon College, La Grande, a dormitory for Oregon College of Education, Monmouth, a dormitory for Oregon State College, Corvallis, and two dormitories with related dining facilities for the University of Oregon, Eugene.
3. That if such loan or loans are made, the Applicant shall provide or make necessary arrangements for the repayment of the loan or loans with interest thereon as may be required.

4. That said H. A. Bork is hereby authorized to furnish such information and take such action as may be necessary to enable the Applicant to qualify for the loan or loans.

5. That the officer designated in the preceding paragraph is hereby designated as the authorized representative of the Applicant for the purpose of furnishing to the United States such information, data, and documents pertaining to the applications for a loan or loans as may be required; and otherwise to act as the authorized representative of the Applicant in connection with these applications.

6. That certified copies of this resolution be included as part of the applications for the loan or loans to be submitted to the United States."

On motion by Director Walsh and second by Director Hart, the following voted in favor of accepting the report and adopting the resolution: Directors Forrester, Hart, MacNaughton, Purvine, Walsh, and Cabell.

Those voting no: None.

The President of the Board thereupon declared the report accepted and the resolution duly adopted by a unanimous vote.

Mr. Walsh continued:

"At the October 1960 meeting, the Board modified slightly the statement in the Administrative Code dealing with nonresident classification. In addition, the Board requested its officers, with the cooperation of Directors Hart and Walsh, to make a re-study of the present nonresident requirements and report to the Board with recommendations for further revisions.

"Yesterday, the Secretary presented to the Committee and other Board members a copy of the present Code statement as modified by action at the October meeting, and a copy of a substitute statement for the entire section of the Code dealing with nonresident classification. It was indicated that the substitute statement was prepared by Mr. Hart and was supported in principle by Mr. Walsh. The differences between the original Code and the substitute statement were explained and were discussed at length.

"The Committee recommends that the proposed Code revision be approved, effective September 1, 1961, with the following modification: Paragraph A (a) shall read 'A student who holds a degree from an accredited college or university unless such a student is pursuing a course of study leading to the degree of Doctor of Medicine or Doctor of Dental Medicine'."
Section K-2 of the Board's Administrative Code, as revised, follows:

**Section K-2 Nonresident Students**

A. A nonresident fee shall be paid (1) by a student whose legal custodian is domiciled outside of Oregon at the time of the student's registration, and (2) by an emancipated student (i.e., one whose domicile is independent of that of his legal custodian) who is domiciled outside of Oregon at the time of his registration, or whose domicile within Oregon does not satisfy the requirements of B(2), below; except:

(a) A student who holds a degree from an accredited college or university unless such a student is pursuing a course of study leading to the degree of Doctor of Medicine or Doctor of Dental Medicine.

(b) A student attending a summer session of an institution under the Board's control.

B. (1) A student whose nonresident legal custodian moves to Oregon and establishes an Oregon domicile during a school term, shall be entitled to registration as a resident student at the beginning of the next term. A student whose resident legal custodian moves away from Oregon and establishes a domicile outside of Oregon during a school term, shall pay a nonresident fee for the next term.

(2) An emancipated student (as defined above) who comes to Oregon to attend an institution under the Board's control, and establishes an Oregon domicile, shall pay a nonresident fee unless he establishes his Oregon domicile at least three months prior to the time of his registration, and does not attend an institution under the Board's control during any part of such three month period; provided, however, that an emancipated student who did not establish his Oregon domicile at least three months prior to his initial registration at an institution under the Board's control, and who pays nonresident fees for an entire school year, shall not thereafter be required to pay nonresident fees if he continues to be domiciled in Oregon during the following summer, either being employed or continuing his school attendance.

C. (1) A student's legal custodian, or an emancipated student, will be deemed to have established an Oregon domicile if he establishes and maintains a bona fide fixed and permanent residence in Oregon, with no intention of moving such residence when the school period expires. Factors that will be considered in determining if an Oregon domicile has been established are: abandonment of previous domicile, rental or purchase of a home, presence of family, presence of household goods, length of time in state, nature and permanence of employment, sources of financial support, ownership of property, and place of voting.
(2) The same test will be employed, and the same factors will be considered, in determining whether a resident who has moved has established a non-Oregon domicile.

(3) If an institution's records show that the domicile of a student's legal custodian, or of an emancipated student, is outside of Oregon, such student shall continue to be classified as a nonresident thereafter until entitlement to classification as a resident is shown, and the burden of proof will be upon the student to show that his classification should be changed.

D. There shall be established a permanent interinstitutional review committee consisting of the officers determining student resident classification at the several institutions of the System, with the Secretary of the State Board of Higher Education as chairman. Residence cases of unusual complexity, especially where there may be conflict of rules, may be referred to this committee for decision. In exceptionally meritorious cases, totaling not more than five per cent of the nonresident enrollment of the institution concerned, this committee may allow exceptions to the rules."

The Board adopted the report and approved the revision of Section K-2 in the Administrative Code as presented above.

Mr. Walsh continued:

"The Chancellor and the Board's attorney, Mr. Wolf D. von Otterstedt, reviewed the substance of the following legislative bills. It was indicated that the primary objective of the discussion of these bills was to present fundamental ideas rather than specific details:

Bill Item I-A-1. Amendment to law governing management of FM Radio KTEC of Oregon Technical Institute; governing management transferred from State Board of Education to State Board of Higher Education.

Bill Item I-A-2. Amendment to law governing bond borrowing ceiling. Suggested borrowing ceiling is $33,600,000, which amount is incorporated in the bill.

Bill Item I-A-3. Amendment to law to change the name of Oregon State College to Oregon State University.

Bill Item I-A-4. Amendment to law to change the name of Eastern Oregon College of Education to Eastern Oregon College and the name of Southern Oregon College of Education to Southern Oregon College.

Bill Item I-A-5. Amendment to law to permit contracting without competitive bidding in connection with forestry research work. The bill is to give the State Board of Higher Education comparable powers with those of the State Forester with reference to sale of forest products and with respect to experimental or research projects in the field of forest land management and forest product utilization."
Bill Item I-B-1. Amendment to repeal law establishing salary range of Director of Oregon Technical Institute.

Bill Item I-B-2. Amendment to law to exclude unemployment compensation coverage for specified personnel employed by publicly supported higher education.

Bill Item I-B-3. Amendment to law to exclude from coverage, under the Unemployment Compensation Act, employees engaged in self-supporting higher educational activities, financed from fees or other charges made against benefiting students.

Bill Item I-B-4. Amendment to law to permit payroll deductions for rental of parking spaces for vehicles on property controlled by the State Board of Higher Education.

Bill Item II. Repealing action. Twelve areas of existing legislation proposed for repeal at the April 26, 1960, Board meeting are listed in this bill.

"The Committee reviewed the draft of each bill presented and recommended that the Chancellor be authorized to take appropriate steps to seek the introduction of the bills and passage thereof."

The Board adopted the report and authorized the Chancellor to take the necessary action to seek introduction and passage of the bills by the 1961 Legislature.

Mr. Walsh concluded the report of the Finance Committee with the following:

"Urban Planning projects are being developed by the Bureau of Municipal Research of the University of Oregon for Umatilla County, Hermiston, and Milton-Freewater with an estimated total cost of $20,000. Of the total, 50 per cent is to be provided by the Housing and Home Finance Agency of the Federal government to match funds provided locally by the indicated governmental units. The Housing and Home Finance Agency, under date of December 7, 1960, offered a grant of $10,000 under stipulated terms and conditions, the contents of which are incorporated in the Board minutes of October 25, 1960.

"The Chancellor recommends that the Board accept the offer and authorize the Comptroller to indicate such acceptance with the Secretary of the Board to provide the attestation."

The Board approved the recommendation as presented.
Mrs. Cheryl S. MacNaughton, Chairman of the Committee on Curricula, presented the following report:

"At the January 1957 meeting, the Board adopted a selective admissions plan whereby graduates of standard Oregon high schools with a minimum grade average of "C" (2.00), or a satisfactory score on a scholastic college aptitude test, or a specified grade-point average on a planned summer session program would be admitted to freshman standing in State System institutions, effective with the fall term of 1958-59. Out-of-state students were required to present a "C" (2.50) average, or a higher score on the aptitude test, or a satisfactory grade average on a heavier summer session program.

"In advance of the meeting, there was distributed to members of the Committee a report indicating for a three-year period the number of Oregon applications filed, the number of students admitted on the basis of grades, tests, and summer session work, the number denied, and the number who matriculated. Included in the report was an analysis and comparison of those denied admission with those accepted. (The complete report is included as Supplement B, Page 488).

"Yesterday, the Secretary of the Board stated that the Inter-institutional Selective Admissions Committee had examined the results obtained from the plan during the past three years and that it was unanimously recommended that the present plan be continued for 1961-62. During this period, additional study would be made in order to develop improvements in the present plan for future consideration.

"The Curriculum Committee recommends that the present selective admission plan be continued for the academic year 1961-62 and the report of the operation of the plan for the past three years be accepted."

The Board adopted the report as presented indicating that it reflected accurately the State System admissions policies to date. However, it was the consensus of the Board that the problem of admissions was the most pressing one in Oregon public higher education because of its impact on all phases of administration. The Board agreed that an interinstitutional committee should make an immediate and continuing study as to the ultimate direction of selective admissions, including recommendations for a revised program and incorporating several definite alternatives. The Board emphasized that the outcome of the study should result in more than a recommendation to upgrade the current admissions policies. The study should be comprehensive enough to give the Board sufficient background to establish definite policies with reference to admissions and related problems such as possible limited enrolments at the major institutions, the establishment of a junior college system, different admission requirements at the various institutions, and so on. All recommendations should be made with the full knowledge and approval of the secondary school administrators and should be given enough publicity so that the general public will be fully informed and have time to "get used to the idea". The completed study should be ready soon enough to permit the Board to formulate and announce new admissions policies from twelve to sixteen months before
they become effective. It should also be made in time for the Board to submit to the Governor and the legislature in the preceding biennium any budgetary requests or recommendations growing out of the resulting policy changes.

The Chancellor indicated that the higher education budget for 1961-1963 as set by the Governor was based on the normal growth of Oregon public colleges under the current selective admissions plan. He further indicated that, as in the past, admissions policies could and would be discussed with secondary school representatives through the High School-College Relations Committee.

At the present time, selective admissions policies do not apply to Oregon Technical Institute, and it is not contemplated to include the Technical Institute in programs applicable to the System's degree-granting institutions.

PRESIDENT'S REPORT

President Cabell referred to the schedule of meetings for 1961 as it appeared in the docket. In line with Board policy, four of the eight regular meetings will be held in Portland, one each at the University of Oregon and Oregon State College, one at a regional college, and one in Salem. The January 23 and 24, 1961, meetings are scheduled at Portland State College.

1961 Schedule of Meetings

President Cabell announced that the presidential search committee for Oregon State College had been appointed. Board representatives on the committee are Directors Walsh and Forrester, with President Cabell as an ex officio member and Dr. Purvine as a substitute.

CHANCELLOR'S REPORT

The Chancellor asked President Strand to report on the recent accreditation of Oregon State College by the Northwest Association of Secondary and Higher Schools. President Strand indicated that copies of the Association's detailed appraisal had been sent to Board members. A recent letter from the Secretary of the Association indicated that Oregon State College had been given unrestricted accreditation for a period of from five to ten years. In his report, President Strand stated that he felt accreditation inspections should not be made any oftener than every ten years and that accreditation teams should limit their criticism and recommendations to established curricular and instructional areas and not attempt to set administrative policies.

OSC Accredited by NW Asso. of Secondary and Higher Schools

Reports were made of two training grants that warranted special mention. The first was a grant of $49,200 from the National Science Foundation to Southern Oregon College to sponsor during the 1961 summer session an institute in teaching techniques in general science for junior high school teachers. President Stevenson indicated that science teaching at the junior high school level was one of the major problems in education.

Gifts and Grants

The second was a grant of $138,609 from the Department of Health, Education and Welfare to the University of Oregon for the support of a Summer Institute in France for eighty secondary school teachers in French. The institute is to be headed by Dr. David M. Dougherty, Head of the Department of Foreign Languages at the University of Oregon. A similar institute was held on the University campus during the 1960 summer session. The current grant to the University is one of a very few for overseas training.
At the October 1960 Board meeting, it was requested that the architects prepare an estimate of the added cost of constructing an additional floor and installing air conditioning in the proposed Oregon State College Library Building as a part of the original construction.

President Strand has reported that Architects Hamlin and Martin had indicated that the estimated additional cost for direct construction was as follows:

1. The estimated additional cost of a fifth floor on the Library Building, if constructed at the same time as the four floors, would be about $435,000.

2. The estimated cost to provide air conditioning in the initial four-story building, containing about 120,000 square feet, would be about $90,000.

3. The estimated cost of completely air conditioning an initial five-story building containing approximately 150,000 square feet, would be about $112,500.

In the discussion that followed the presentation of the above data, College officials indicated that in their best judgment the first unit of the Library with four floors as now being planned would be adequate to accommodate the number of books to be shelved and the number of student stations required until a future addition could be scheduled for construction after 1965-1967. In response to a question from the Board, the Chancellor expressed the opinion that the Governor would not increase the recommended capital construction program for the 1961-1963 biennium to provide for the addition of a fifth floor or to provide complete air conditioning. Mr. William H. Carlson, Oregon State College Librarian, indicated that there was a reasonable chance that the air conditioning could be included within the approved budget request.

On the basis of the information provided, the Board confirmed the approval of the preliminary scheme for the four-floor Library Building as presented at the October 1960 meeting, with the recommendation that Board officials authorize the architects to include the air conditioning system as an additive alternate in the planning for this structure.

At the December 1959 meeting, the Board approved the employment of Architect Herman Brookman to design a proposed addition to the Pharmacy Building at Oregon State College and provided $2,600 from the Board's Unrestricted Unappropriated Funds to cover such planning costs.

Oregon State College officials recommended that the services of the architect be extended to include the planning for the contemplated remodeling of the existing building so that this work could be integrated with the preliminary planning for the proposed addition to the building. The fee payable to the architect for the alterations work would be 8.0 per cent, including engineering consulting services.
The direct construction cost for the remodeling is estimated to be approximately $100,000, and the preliminary planning costs would be 2.0 per cent, or $2,000. The entire project is included in the capital construction program for 1963-1965, tentatively approved by the Board at the July 26, 1960, meeting, in the amount of $415,000.

With the concurrence of the Chancellor, Oregon State College officials recommended that the sum of $2,000 be provided from the Board's Unrestricted Unappropriated Funds and that the appropriate Board officials be authorized to instruct the architect to proceed with the development of the preliminary plans for the proposed alterations and addition to the Pharmacy Building simultaneously.

The Board authorized the recommendations as indicated.

Item 3
Final Acceptance of Additions to Memorial Union Building, OSC

At the October 1960 meeting, a report concerning the additions to the Memorial Union Building on the campus of Oregon State College indicated that the work of the general contractor had been inspected and accepted as of September 13, 1960, but that the acceptance of the work of other contractors had been deferred. The final inspection was made by the Comptroller on November 29, 1960, and the work of the mechanical, electrical, food service and bowling alley contractors was accepted, subject to the completion of a few minor items.

The Board confirmed the final inspection and acceptance of the additions to the Memorial Union Building.

Item 4
Acceptance of HHFA Federal Planning Funds for Physical Education Building, PSC

The Housing and Home Finance Agency of the Federal government has, pursuant to a Board request authorized at the September 1960 meeting, offered to advance $19,635 to defray the cost of preparing preliminary plans for a Physical Education Building at Portland State College. The offer is subject to the terms of agreement, the form of which is included in the minutes covering the meeting of the Board held on September 13, 1960.

The Chancellor recommended that the Comptroller be authorized to execute the appropriate agreement with certification to be provided by the Secretary of the Board.

The Board approved the recommendation as presented.

Item 5
Purchase of Stock Property, UO

Acting President Jones recommended the purchase at the option price of the Stock property located at 1310 Agate Street, Eugene, which is within the campus boundaries of the University of Oregon. Three appraisals were secured: $7,550, $8,780, and $10,000, for an average of $8,775. An option for $8,770 has been obtained. The property consists of a lot 60 by 90 feet on which is located a two-bedroom dwelling and garage. The property is needed for future campus development. It is recommended that the property be purchased from University Rental Funds.

The Board approved the property purchase as recommended.
Item 6

Purchase of Lamb Property, UO

Acting President Jones recommended the purchase at the option price of the Lamb property located at 1449 Columbia Street, Eugene, which is within the campus boundaries of the University of Oregon. Three appraisals were secured: $18,750, $21,975, and $22,500, for an average of $21,075. An option for $20,000 has been obtained. The property consists of a lot 66.7 by 160 feet on which is located a two-story house with partial basement and a double garage with shop attached. The house was remodeled about ten years ago and is in good condition. The property is needed as part of the site for Dormitory No. 7. It is recommended that funds for the purchase of the property be provided from the Board's Land Purchase Reserve.

The Board approved the property purchase as recommended.
Item 7

Revision of Administrative Code Section K-4

At the April 1933 meeting, the Board adopted a regulation requiring all students as a prerequisite for entrance to institutions under the control of the Board to satisfy the institutional physician of immunity from smallpox. No modification or supplement to this provision has been made by the Board since that time. To provide further protection to the students and communities of the institutions under the control of the Board, the health service directors, institutional executives, and the Chancellor recommend that the present statement under Section K-4 of the Administrative Code be revised and expanded as indicated below:

Present Statement

The Board requires all students as a condition of entrance to institutions under the control of the board to satisfy the institutional physician of immunity to smallpox (by evidence either of having had the disease or of successful vaccination), provided that students who may because of religious conviction decline vaccination may be admitted, but only on condition that they, and in the case of minor or dependent students, their parents or guardians with them, agree in writing to assume all expenses incident to their care and quarantine should they fall ill with smallpox while students at the institutions. (Meeting #34, 4-29-33, p. 4.)

Recommended Revision

K-4. Compulsory Pre-entrance Physical Examination Requirements.

For protection of the Public Health, the Board requires a physical examination of all students as a condition of entrance to institutions under the control of the Board. All students must present proof to the satisfaction of the institutional physicians of the following immunizations and tests, within the period and in the manner specified:

A. Smallpox -- within five years.

B. Diphtheria-tetanus -- within four years.

C. Tuberculosis -- by intradermal tuberculin test, or chest film, or both, within six months prior to registration.

If so specified by the school catalog, the tuberculosis testing will be accomplished on the campus by the Health Service.

In addition, immunization against poliomyelitis is recommended within one year.
The physical examination will be repeated at a five-year interval, or at the discretion of the institutional physician. A summary interval history should be recorded on the health service report when a student transfers to another institution in the system.

Students who decline immunizations because of religious conviction may be admitted, but only on the condition that they, and in the case of minor or dependent students, their parents or guardians with them, agree in writing to assume all expenses in connection with their care and isolation should they acquire smallpox, diphtheria or tetanus while students at the institution.

The Board unanimously approved the revision of Section K-4 of the Administrative Code as recommended.

Item 8

The State Board of Higher Education is the Trustee of the Ion Lewis Scholarship Fund which provides traveling scholarships of $200 to $1,000 to certain advanced students in architecture at the University of Oregon. The three-man managing committee of the Fund is composed of a faculty member of the University of Oregon School of Architecture to be nominated by the President of the University, and two members of the Oregon Chapter of the American Institute of Architects to be nominated by the Executive Committee of that organization. As Trustee, the State Board of Higher Education must approve and elect all three members of the committee.

The University representative is appointed on a continuous basis, one member from the A.I.A. is appointed for a two-year term and the other for a four-year term. Dean Walter Gordon of the School of Architecture and Allied Arts is the University representative. To fill the two-year and four-year terms President Jones recommends that Mr. Norman Zimmer be appointed for the four-year term, and Mr. Frank Roehr be reappointed for another two-year term, both appointments to be effective retroactive to September 1960.

The Board approved the recommended appointments
At the July 1960 Board meeting, Dean Baird presented a proposal from the Portland Center for Hearing and Speech, Inc., whereby a lease would be entered into by the corporation and the Board. It was indicated that the corporation was now operating a hearing and speech center in Portland and that the corporation desired to construct a new building on the University of Oregon Medical School campus, adjoining the Crippled Children's Division Building, under a proposed 50-year site lease. The cost of the building was to be about $80,400 and of this amount $40,200 was to be received from a Hill-Burton grant from the U. S. Public Health Service and the remainder was to be provided from gift moneys now on hand and to be received by the corporation. It was indicated also that the annual operating budget of the corporation approximated $44,539 with about half of the amount being provided from a grant from the United Good Neighbor Campaign and about half from fees earned. Authority was given to negotiate the lease, for review and approval by the Board, with the understanding that state funds were not to be employed in the operation of the program.

A proposed lease has been prepared by the Board's attorney which is acceptable to the corporation. The main provisions of the lease are as follows:

1. The state leases to the corporation for 50 years from January 1, 1961, a site of about 20,800 square feet, or .47 acre, on the Medical School campus, north of the Crippled Children's Division Building. (Note: The site is part of the 87.9 acres deeded on June 4, 1926, to the state for the Medical School, or any school, branch or department of the University. Authority was also granted to the state to lease or convey not to exceed 40 acres to the United States or to corporations or unincorporated organizations or associations allied to, or affiliated with, the Medical School, to be used as sites for hospitals or in any other way for the benefit of the University or its schools, branches or departments. Under said authorization, 25 acres were deeded to the United States for the Veterans Hospital, and subsequently, 1.779 acres were readed to the state.)

2. The building is to be north of the Crippled Children's Division Building and is to provide approximately 4,000 square feet of floor space. Plans for the building are to be developed in cooperation with and subject to the approval of the Board. Awarding of contracts for construction are subject to Board approval, although the Board will not be a party to any contracts thus entered into. The Board is not required to seek or provide any funds for the construction of the project, the estimated total cost of which is $80,400.

3. The new hearing and speech center will be operated by the corporation or the Board, subject to such additional mutual agreements as the parties may wish to consummate. In the event that the operation and administration of the center is to be assumed by the Board, an agreement is to be formulated for joint approval, and the corporation will remain responsible during the life of the lease for providing adequate operating funds. The Board will be under no obligation to seek the procurement of state tax funds for the operation of the building.
4. The lease may be terminated by the Board by giving written notice to the corporation if the latter has not entered into a construction contract for the building prior to December 31, 1961.

5. The lease may be terminated also by the Board upon thirty days written notice to the corporation for breach of any terms or conditions of the lease. If the Board agrees to manage and operate the Center, the lease may be terminated by the Board if the corporation does not provide, in advance, sufficient funds for the operation and administration of the building so that the speech and hearing center can be maintained and operated in a manner and at a level of quality and scope at least equal to that being provided now by the corporation at its existing hearing and speech center.

6. The lease is not assignable and upon expiration or termination of the lease, title to all improvements constructed upon the premises shall vest in the Board.

Dean Baird, with the concurrence of the Chancellor, recommended that the President and Secretary of the Board be authorized to sign a lease embodying the substance of the provisions which have been outlined.

The Board authorized the President and Secretary of the Board to execute a lease with the Portland Center for Hearing and Speech, Inc., with the indicated provisions.

Item 10
Addition to Animal Diagnostic Laboratory, OSC

President Strand reported that $25,000 has been budgeted from the state appropriation for research service buildings to cover the cost of constructing an addition of approximately 1,290 square feet to the Animal Diagnostic Laboratory at Oregon State College. Eight bids were received for the project on November 22, and a contract award was made to the low bidder, Johnston and Meloy, Salem, in the amount of $22,409. The budget total of $25,000 includes not only the direct construction costs but also the architect's fees and a reserve for contingencies.

The Board confirmed the contract award.

Item 11
Budget Addition for Federal Cooperative Extension, OSC

The Board approved the budgeting in the year 1960-61 by the Federal Cooperative Extension Service of a balance of state appropriation funds brought forward from the fiscal year 1959-60 to be placed in the current year's budget as follows:

For cost of county agent trainee positions (to be transferred at a later date to various counties as vacancies occur) $ 10,086.27

To be placed in the Director's Emergency Reserve 40,886.50

Total $ 50,972.77

It is understood that neither of the above additions is recurring and that they will not be used to raise the permanent operating level of the Extension Service.
Meeting #291-23

December 13, 1960

Item 12  
Budget Addition for Counseling Center, UO  
The Board approved the addition of $2,540 from the Counseling Center Restricted Cash Reserve to the University Counseling Center equipment budget for the purchase of test scoring equipment.

Item 13  
Addition to Library Budget, UO  
The Board approved the addition of $10,000 to the University of Oregon Library equipment budget from the Reserve for Increased Enrolment for the purchase of additional library stacks to take care of increased enrolment needs.

Item 14  
Budget Addition for School of Nursing  
The Board approved the transfer of $10,997.59 to the School of Nursing from the Reserve for Increased Enrolment at the Medical School, to be used as follows:

Salaries (to provide for an increase in time and salary for Miss Dolores Wright and Mrs. Georgann Chase, as shown in the personnel section which follows) $ 5,747.59

Wages 1,500.00

Materials and Expense 1,000.00

Travel 1,500.00

Equipment 1,250.00

$ 10,997.59

The above adjustments are to provide for the increased enrolment in the School of Nursing.

Item 15  
Transfer to School of Music, UO  
The Board approved the transfer of $10,400 to the University of Oregon School of Music equipment budget for the purchase of a practice pipe organ, from the following:

Operating Reserve $ 5,000.00

Unallocated balances in music instructors' fees for private lessons and music instrument rentals 5,400.00

$ 10,400.00

The practice organ is needed to care for increased enrolment. The only such instrument now available is the pipe organ in the Music School Auditorium.
The Board approved the following personnel adjustments as submitted by the Institutional Executives concerned, the necessary funds being provided in the 1960-61 budgets:

**University of Oregon**

N. E. Bowman, Increase in Salary
Increase in annual salary for Dr. Herbert E. Bowman, Associate Professor of Slavic Languages, from $8,800 to $10,000, effective January 1, 1961. The $800 required for the current academic year is to be transferred from the Operating Reserve. The demand for personnel in this field makes it necessary to increase his salary to a more competitive level.

R. W. Castenholz, Increase in Salary
Increase in annual salary for Dr. Richard W. Castenholz, Assistant Professor of Biology, from $5,750 to $6,250, effective January 1, 1961, to bring his salary up to a more competitive level. The $533 required for the remainder of the current year is to be transferred from the Operating Reserve.

**University of Oregon Dental School**

Salary Increases:
Increases in annual salary for the following staff members, effective November 1, 1960, in recognition of increased responsibilities in teaching, administration, and research:

C. J. Stout, Increase in Salary
Dr. Charles J. Stout, Associate Professor and Acting Head of the Prosthetic Dentistry Department, from $9,500 to $10,500.

L. G. Terkla, Increase in Salary
Dr. Louis G. Terkla, Associate Professor of Operative Dentistry and Administrative Assistant to the Dean, from $11,768 to $12,268.

N. R. Rickles, Increase in Salary
Dr. Norman H. Rickles, Department Head and Professor of Oral Pathology, from $14,000 to $14,600.

D. R. Paulson, Increase in Salary
Dr. Duane R. Paulson, Assistant Professor of Pedodontics, from $8,750 to $9,250.

The $1,733.33 required for the above adjustments in 1960-61 is available in the Dental School Salary Adjustments Reserve.

**University of Oregon Medical School**

S. G. Babson, Appointment
Appointment of Dr. S. Gorham Babson as Associate Professor of Pediatrics, yearly tenure, 12-months' service, effective December 1, 1960, at an annual salary of $18,000, to be paid $15,000 from the Collaborative Cerebral Palsy Project and $3,000 from the Crippled Children's Division. For the month of December, Dr. Babson will be on a half-time basis and will be transferred to full-time on January 1, 1961. The $1,625 required in the Crippled Children's Division for the current year is to be transferred from the requisition budget in that account.
Increase in salary for Dr. Louis Lino, Instructor in Neurology, from $6,000 to $7,000 per year, effective November 1, 1960. Dr. Lino is paid under a U. S. Public Health Service research grant and funds for the increase are available in the grant.

Salary Increases, School of Nursing Staff

Increases in annual salary for the following staff members of the School of Nursing, effective November 1, 1960, to bring such salaries up to a more competitive level:

- Gertrude Peterson, Assistant Professor, from $7,020 to $7,320.
- Frances Wise, Assistant Professor, from $6,500 to $6,800.
- Martha McCarthy, Instructor, from $5,400 to $5,800.
- Margaret Brunkow, Instructor, from $5,300 to $5,700.
- Hortensia Dalmryple, Instructor, from $5,100 to $5,300.
- Gwendolyn Oluk, Instructor, from $4,960 to $5,300.
- Janice Hillyer, Instructor, from $5,040 to $5,300.

The $1,466.66 required for these increases for the remainder of the current year is to be provided from unallocated salaries in the School of Nursing budget.

Increase in time and salary for Miss Dolores Wright, Instructor of Nursing, from 20 per cent time and $1,153 salary to full time and $5,900 salary, effective December 1, 1960; and

Increase in time and salary for Mrs. Georgann Chase, Instructor of Nursing, from 21 per cent time and $1,194 to full time and $6,300 salary.

The above adjustments are necessary to care for increased enrolments in the School of Nursing. Required funds are to be provided by a transfer from the Reserve for Increased Enrolment as indicated in Item 14 of the Finance section.

Appointment of the following individuals on a voluntary basis, effective immediately:

- Dr. John R. Walsh as Clinical Professor of Medicine. Dr. Walsh is Chief of the Medical Service at the U. S. Veterans Hospital in Portland.
- Dr. Robert B. Higgins as Assistant Clinical Professor of Surgery. Dr. Higgins is Chief of the Division of Urology at the Veterans Administration Hospital.
- Dr. John F. Kane as Assistant Clinical Professor of Surgery. Dr. Kane is Director of Professional Services at the Veterans Hospital in Portland.

Courtesy appointment of Dr. Yusho Miura as Visiting Research Professor of Dermatology, for a one-year period beginning September 27, 1960. Dr. Miura is Professor and Chairman of the Department of Dermatology at the Hokkaido University Medical School, Sapporo, Japan, and is on the University of Oregon Medical School campus under a fellowship grant from the Rockefeller Foundation.
Advance in rank from Instructor to Assistant Professor of Pediatrics for Dr. Robert Meechan, effective November 1, 1960, with a corresponding increase in salary from $9,500 to $12,000, in recognition of outstanding service. Funds for the increase are available from Doernbecher Hospital gift funds.

Oregon State College

Increase in the state's portion of the annual salary for Mr. W. A. Sawyer, Superintendent of the Squaw Butte-Harney Experiment Station with rank of Professor, from $4,885 to $5,265, effective October 16, 1960. Mr. Sawyer is a joint employee of the Experiment Station and the Federal government. On October 16, the portion of his salary paid by Federal funds was increased from $4,885 to $5,630. Additional state funds in the amount of $269.64 required in 1960-61 for this increase are to be provided from the Director's Emergency Reserve.

Increase in annual salary for Mr. Dave E. Dillard, Instructor of General Engineering, from $5,000 to $5,144, effective October 1, 1960, as compensation for additional duties as a dormitory counselor.

Increase in annual salary of Mr. Ronald Schrock, Instructor of General Engineering, from $5,000 to $5,369, effective October 1, 1960, in compensation for additional duties as a dormitory counselor.

Funds for the above increases are available in the Department of Dormitories.

Honorary appointment of Mr. Benjamin H. Beam as Research Associate in Electrical Engineering, effective November 1, 1960, to stimulate research in the fundamental areas of astro-electricity. Mr. Beam maintains an electrical engineering consulting service in Eugene.

Portland State College

Courtesy appointment of Miss Bernice Orwig, Associate Professor of Nursing at the Medical School, as Teaching Associate with rank of Associate Professor. Miss Orwig is teaching the Backgrounds of Nursing course on the Portland State College campus during the 1960-61 academic year, without additional compensation. Dean Baird concurs in the recommendation.

General Extension Division

Resignation of Mr. Richard Martin, Assistant Professor of Journalism, effective August 31, 1960. Mr. Martin has been on leave without pay for the current academic year; and

Advance in rank, effective November 1, 1960, from Instructor to Assistant Professor of Journalism with the title of Head of Public Affairs, for Mr. George Diel, with a corresponding increase in salary from $5,500 to $6,250 for 10-months' service. The $625 required for 1960-61 is to be transferred from the Salary Savings Reserve. Mr. Diel previously had been designated as a replacement for Mr. Martin during the latter's leave of absence.
Centralized Activities

F. R. Findtner, Appointment
Appointment to a new position of Mr. Frederick Robert Findtner as Research Associate in the Comptroller's Office with rank of Instructor, effective October 24, 1960, at an annual salary of $7,080. The $4,872.26 required for 1960-61 is to be transferred to salaries from wages provided for a civil service position.

W. L. Newton, Appointment
Appointment to a new position in the newly established Office of Institutional Research of Mr. William L. Newton as Research Associate with rank of Assistant Professor, yearly tenure, 12-months' service, at an annual salary of $7,670, effective December 1, 1960. The $4,474.19 required for the current fiscal year is to be transferred from Budget Office wages to the salary budget of the Office of Institutional Research.
The Board accepted the following gifts and grants and authorized the Secretary of the Board to make suitable acknowledgement to the donors:

University of Oregon

Scholarships & Fellowships

Meeting #291-29

December 13, 1960

Haskins & Sells Foundation

Grant of $1,000 from the Haskins & Sells Foundation, Portland, to provide a faculty assistance grant for instruction in accounting for Mr. Herbert E. Olivera for the 1960-61 academic year.

U. S. Atomic Energy Commission

Grants totaling $35,162 from the U. S. Atomic Energy Commission, Hanford Operations Office, Richland, Washington, for research as follows:

1. $20,857 - "Study of Exchange Reactions and of Diffusion Controlled Reactions by Means of Isotopic Tracers", September 16, 1960, through September 15, 1961, under the direction of Dr. R. M. Noyes, Professor of Chemistry.

2. $14,305 - "Study of Gaseous Chemical Reaction Kinetics Using a Mass Spectrometer", September 1, 1960, through August 31, 1961, under the direction of Dr. D. F. Swinehart, Associate Professor of Chemistry.

U. S. Public Health Service

Grants totaling $42,810 from the U. S. Public Health Service for research and fellowships, as follows:

1. $17,145 - "Syntheses of Derivatives of Phenylhydronaphthalenes", December 1, 1960, through November 30, 1961, under the direction of Dr. L. H. Klemm, Associate Professor of Chemistry.

2. $135 - To provide a "research fellowship special allowance for Raymond H. Rohle", September 1, 1959, through August 31, 1960, under the direction of Dr. Robert F. Pagot, Assistant Professor of Psychology.

3. $9,200 - "Hereditary Jaundice in Peromyscus", January 1 through December 31, 1961, under the direction of Dr. R. R. Huebels, Professor of Biology.

4. $16,330 - "Interrenal-Pituitary Control of Salt Balance in Amphibians", January 1 through December 31, 1961, under the direction of Dr. Bradley T. Scheer, Professor of Biology.

UO Development Fund

Gift of $700 from the University of Oregon Development Fund to the Library Gift Campaign Fund.

F. Brenne

Gift of eight 1958 and 1959 city directories for west coast cities from Mr. Fred Brenne, Eugene. The gift, valued at $225, is an addition to the library collection.

University of Oregon Dental School

Grant of $6,000 from the American Cancer Society, Portland, in continued support of cancer teaching activities of the Oral Tumor Registry, September 1, 1960, through August 31, 1961, under the direction of Dr. N. H. Rickles, Head of the Oral Pathology Department.
Meeting #291-30

December 13, 1960

U. S. Army
Grant of $10,050 from the U. S. Army, Medical Research and Development Command, to continue the study of the "Dimensional Behaviour of Wax Patterns as Used in the Indirect Inlay Casting Procedure", July 1, 1960, through June 30, 1961, under the direction of Dr. David B. Mahler, Head of the Dental Materials Department.

U. S. Public Health Service
Grants totaling $31,745 from the U. S. Public Health Service for research, supplies, and other purposes as follows:

1. $500 - To provide a research fellowship supply grant for Dr. William B. Wescott, graduate student in Oral Pathology, from July 1, 1960, through June 30, 1961. Dr. Wescott is engaged in research entitled, "Tissue Reactions of Infected and Non-Infected Root Tips", under the direction of Dr. Norman H. Rickles, Head of the Department of Oral Pathology.

2. $500 - To provide a research fellowship supply grant for Dr. James Bennett, graduate student in Oral Pathology, in continued support of his research project entitled, "Histological Studies of Keratotic Lesions of the Oral Mucosa", July 15, 1960, through July 14, 1961, under the direction of Dr. Rickles.

3. $30,745 - To establish a research project entitled, "Chemical Antigenic Analyses of Order Actinomycetales", September 1, 1960, through August 31, 1961, under the direction of Dr. Marshall L. Snyder, Head of the Department of Bacteriology.

University of Oregon Medical School

Scholarships & Fellowships
Gifts totaling $450 from the following donors for scholarships and fellowships:

Morrow County, Tuberculosis and Health Association, Heppner $ 250.00
Oregon State Elks Association 200.00

American Cancer Society; Oregon Division
Grant of $11,712 from the Oregon Division of the American Cancer Society, Portland, to be distributed as follows: Bone Tumor Registry, $3,945; Smear Laboratory, $2,972; Oregon Cancer Society Residency, $2,095; and Cytology Traineeships, $2,700. The grants are under the direction of Dr. Jackson T. Crane, Chairman of the Department of Pathology, and with the exception of the cytology traineeships, which are effective October 15, 1960, through January 15, 1961, they are for the period September 1, 1960, through August 31, 1961.

Mrs. G. C. Bellinger
Gift of $100 from Mrs. Grover C. Bellinger, Salem, contributed in memory of Dr. Grover C. Bellinger to be used in the Pulmonary Function Research Laboratory under the direction of Dr. Donald M. Pitcairn, Head of the Division of Chest Diseases.

Duncan Bequest
Bequest of $1,407.35 under the will of Malcolm M. Duncan for the unrestricted use of Doernbecher Memorial Hospital for Children.

<td>$576 - &quot;Studies on the Etiology and Pathogenesis of Pulmonary Hyaline Membranes&quot;, under the direction of Dr. Toshio Fujikura, Instructor in Pathology and Obstetrics and Gynecology.</td>
</tr>
<tr>
<td>5.</td>
<td>$3,000 - &quot;Effect of Fat and Oil Meals on Fatty Acid Content of Red Blood Cells, Serum, and Plasma&quot;, under the direction of Dr. Roy L. Swank, Professor and Head of Division of Neurology.</td>
</tr>
<tr>
<td>6.</td>
<td>$1,000 - &quot;A Study of the Morphologic Changes Occurring with Time in Arterial and Venous Thrombi in Dogs&quot;, under the direction of Dr. Robert H. Bigley, Instructor in Medicine.</td>
</tr>
</tbody>
</table>
Grant of $5,500 from the National Fund for Medical Education, New York City, "for basic research to be utilized at the discretion of the Dean". This grant plus the $2,000 reported in the minutes of the June 1960 meeting completes the total grant of $7,500 provided for this purpose by this organization.

Grants totaling $246,316 from the U. S. Public Health Service effective December 1, 1960, through November 30, 1961, unless otherwise specified, for research, supplies, and training grants, as follows:

1. $27,572 - "Cooperative Study in Chemotherapy of Prostatic Cancer", under the direction of Dr. Clarence V. Hodges, Head of the Division of Urology.

2. $19,463 - "Radiostimulation of Hypothalamus", under the direction of Dr. Monte A. Greer, Head of the Division of Endocrinology.

3. $3,645 - "Embryology of Microcirculatory Function in the Mouse", under the direction of Dr. Robert L. Bacon, Professor of Anatomy.

4. $10,166 - "Central Connections of Auditory System", under the direction of Dr. William A. Stotler, Associate Professor of Anatomy.

5. $10,490 - "Study of Recurrent and Potential Ocular Infections", under the direction of Dr. Robert P. Burns, Assistant Professor of Ophthalmology.

6. $59,248 - Graduate training grant in Psychiatry, July 1, 1960, through June 30, 1961, under the direction of Dr. George Saslow, Chairman of the Department of Psychiatry.

7. $32,775 - Undergraduate training grant in psychiatry, September 1, 1960, through August 31, 1961, under the direction of Dr. Saslow.

8. $45,445 - Training grant in bacteriology, November 1, 1960, through June 30, 1962, under the direction of Dr. Arthur W. Frisch, Chairman of the Department of Bacteriology.

9. $12,000 - Trainee stipend for graduate training in psychiatry, January 1 through April 30, 1961, under the direction of Dr. Saslow.

10. $25,012 - "Western Regional Cooperative Cancer Chemotherapy Study", January 1 through December 31, 1961, under the direction of Dr. E. E. Osgood, Professor and Head of the Division of Experimental Medicine.

11. $500 - Postdoctoral fellowship supply grant, April 24, 1960, through April 23, 1961, under the direction of Dr. Janice R. Stevens, Assistant Professor of Neurology.
Oregon State College

Scholarships & Fellowships
Gifts totaling $7,865 from the following donors for scholarships and fellowships:

- Elks Lodge No. 180, Astoria $375.00
- The Autzen Foundation Scholarship, Portland 500.00
- Lions Club, Boise, Idaho 100.00
- Brookings Harbor Lions Club, Brookings 140.00
- Coburg High School Student Body and Trico "B" League Principals and Coaches Assn. 200.00
- Delta Kappa Gamma Society, Alpha Rho State, Grants Pass 400.00
- Fort Pack Indian Reservation, Poplar, Montana 750.00
- The George Grotefend Scholarship Board, Redding, California 150.00
- Hyslop Agricultural Research Memorial, First National Bank of Oregon, Portland 1,000.00
- Kiwanis Club, Glide 100.00
- L. G. Balfour Company, Attleboro, Massachusetts 500.00
- Lions Club, Mapleton 250.00
- The McCloud River Lumber Company, McCloud, California 500.00
- Oregon Coast Veneer, Brookings 400.00
- Pacific Intermountain Express, Oakland, California 250.00
- Palm Springs High School, Palm Springs, California 500.00
- Palo Alto Senior High School, Palo Alto, California 250.00
- Rayonier Incorporated, Hoquiam, Washington 500.00
- Rotary Ann Club, Roseburg 100.00
- Sons of Italy, Grand Lodge of California, San Francisco, California 200.00
- The Electric Club of Oregon, Portland 250.00
- The Delta Kappa Gamma Society, Hood River 100.00
- Pacific Lions Club, Stockton, California 250.00
- Kiwanis Club, Canby 100.00

Atomic Energy Commission
Grants totaling $40,795 from the Atomic Energy Commission, Hanford Operations Office, Richland, Washington, for research as follows:

1. $11,639 - "Exploration of Radioactive Tracers as an Aid in the Investigation of a Variety of Chemical Phenomena in Non-Aqueous Solvents--Phenomena in the Main Relating to Generalized Acid-Base Behavior", September 20, 1960, through September 19, 1961, under the direction of Dr. T. H. Norris, Professor of Chemistry.

2. $14,500 - "The Mode of Action of Labeled 2, 4-Dichlorophenoxyacetic Acid and Similar Agents", September 1, 1960, through August 31, 1961, under the direction of Dr. Joseph S. Butts, Head of Agricultural Chemistry.

3. $14,656 - "Radiotracer Study of Biosynthetic and Respiratory Pathways", September 1, 1960, through August 31, 1961, under the direction of Dr. C. H. Wang, Professor of Chemistry.
Grant of $10,500 from the Bonneville Power Administration, to study "Radio Noise Phenomena", September 1, 1960, through September 1, 1961, under the direction of Dr. James G. Knudsen, Assistant Dean of Engineering in charge of the Engineering Experiment Station.

Gift of Styrofoam, valued at $1,329.70, from The Dow Chemical Company, Midland, Michigan, for use in the Dormitory Service Building.

Gift of $150 from Dean F. A. Gilfillan of the School of Science "to purchase Bernard of Gordon, Lilium Medicine, Venice, 1496, for the library".

Grants totaling $314,600 from the National Science Foundation, Washington, D.C., in support of research as follows:

1. $10,800 - "Physiological Studies on the Lactic Acid Bacteria", for approximately two years beginning on or about October 1, 1960, under the direction of Dr. William E. Sandine, Assistant Professor of Bacteriology.

2. $17,900 - "Momentum and Heat Transfer Characteristics of Mixtures of Two Immiscible Liquids", for approximately three years beginning about October 24, 1960, under the direction of Dr. James E. Knudsen, Assistant Dean of the School of Engineering.

3. $285,900 - To support the Academic Year Institute for Science Teachers during the 1961-62 school year, under the direction of Dr. S. E. Williamson, Head of Science Education.

Grant of $1,000 from the State of Oregon, Department of Planning and Development, "for research involving the investigation of a method of removing copper and zinc together as a brass or separately from certain specified ores or ore concentrates", November 1, 1960, through June 30, 1961, under the direction of Dr. James G. Knudsen, Assistant Dean of Engineering.

Grant of $15,622.50 from the U. S. Air Force for the Air Force Flight Instruction Program, for the 1960-61 academic year.

Grant of $3,430 from the U. S. Army, Corps of Engineers, in support of research entitled, "Development of Numerical Techniques for a Solution of Simulated Seasonal Regulation of a Multi-unit Hydro-electric System", to be completed by June 15, 1961, under the direction of Dr. Robert E. Gaskell, Professor of Mathematics.

Grants totaling $46,010 from the U. S. Public Health Service, for research as follows:

1. $16,100 - "Inherited Endocrine and Nutritional Relationships", September 1, 1960, through August 31, 1961, under the direction of Dr. R. W. Mason, Junior Animal Physiologist and Instructor in Animal Husbandry.
2. $8,735 - "Estuarine Pollution Factors", October 1, 1960, through September 31, 1961, under the direction of Dr. W. Bruce McAlister, Research Associate in Oceanography.

3. $9,938 - "Coulometry: Determination of Dissolved Oxygen", September 1, 1960, through August 31, 1961, under the direction of Dr. Harry Freund, Associate Professor of Chemistry.

Grants to Agric. Exper. Station from:

Agric. Engineering Research Foundation

Grants to the several Agricultural Experiment Station Departments and Divisions for research, from various donors as follows:

$4,000 - In partial support of the cooperative research work carried on by the Agricultural Engineering Department and the Agricultural Engineering Research Foundation, under the direction of Mr. J. B. Rodgers, Professor and Head of the Department of Agricultural Engineering.

Agricultural Research Foundation

$6,775 - To be distributed to research projects under the direction of staff members in the Department of Plant Pathology, as follows: "Cause and Control of Diseases of Nursery Plants", $3,675; "Nature of Fungicides", $2,500; "Identification and Control of Plant Parasitic Nematodes", $300; and "Testing Fungicides for the Control of Diseases of Tree Fruits", $300.

$4,300 - To be distributed to research projects under the direction of staff members in the Department of Soils, as follows: "Frequency and Amount of Irrigation for Selected Crops", $1,900; "Soil Fertility for Field Crops in the Willamette Valley", $2,400.

$1,828.75 - "The Chemistry, Mode of Action, Toxicity, and Factors Influencing the Effectiveness of Herbicides and Plant Growth Regulators", under the direction of Dr. V. H. Freed, Professor of Agricultural Chemistry.

Bureau of Land Management

$500 - In support of forest tree research at the seed laboratory, under the direction of Dr. Te May Ching, Assistant Agronomist and Assistant Professor of Farm Crops.

$3,400.05 - "Alsea Basin Soil Survey", under the direction of Dr. J. F. Corliss, Assistant Soil Scientist and Assistant Professor of Soils.

Bureau of Reclamation

$3,024.01 - "Increasing Efficiency of Utilization of Irrigation Water", under the direction of Mr. W. N. Stammers, Jr., Irrigation Scientist.

The Dow Chemical Company

$2,000 - "Selective and Non-Selective Weed Control on Agronomic Crops and Non-Crop Land and Factors Affecting Control Practices", under the direction of Dr. W. R. Furtick, Professor of Farm Crops.
$4,000 - "Economic Implications of Changes in the Cost Structure of the Fruit and Vegetable Processing Industry in the Northwest and Competing Areas", under the direction of Mr. Harvey Hutchings, Junior Agricultural Economist and Instructor of Agricultural Economics.

Tennessee Valley Authority $2,044.95 - "Economic and Agronomic Evaluation of Fertilizer Response Data of Alfalfa Grown on 'Aiken Soils' of the Willamette Valley", under the direction of Dr. Mykle E. Harward, Associate Soil Scientist and Associate Professor of Soils, and Dr. William G. Brown, Assistant Agricultural Economist and Assistant Professor of Agricultural Economics. The funds are to be distributed as follows: $1,809.95 to the Department of Soils and $225 to the Department of Agricultural Economics.

U.S.D.A. Agricultural Research Service $2,000 - "Nature and Control of Ornithosis in Birds", under the direction of Dr. E. M. Dickinson, Professor and Head of the Department of Veterinary Medicine.

$1,000 - "Genetics and Environment Factors Related to Fertility in Turkeys", under the direction of Mr. J. A. Harper, Poultry Husbandman and Professor of Poultry Husbandry.

U.S.D.A., Biological Sciences Branch $1,150 - "Study of the Factors that Determine Susceptibility of Pears to Carbon Dioxide Injury", under the direction of Dr. Elmer Hansen, Horticulturist and Professor of Horticulture.

U. S. Forest Service $3,320 - "Alsea Soil - Vegetation Survey", under the direction of Dr. John Corliss.

U. S. Forest Service, Pac., NW Forest Range Exp. Station $1,280.86 - "Spruce Budworm Research", under the direction of Dr. J. A. Rudinsky, Associate Professor of Entomology and Associate Entomologist.

West Coast Beet Seed Company $100 - "Control of Weeds in Sugar Beet Seed Crops", under the direction of Dr. W. R. Furtick.

Western Phosphates, Inc. $800 - "Soil Fertility for Field Crops in the Willamette Valley", under the direction of Mr. T. L. Jackson, Associate Professor of Soils.

Portland State College

The Alcoa Foundation Gift of $125 from The Alcoa Foundation, Pittsburgh, Pennsylvania, to apply to student loans.

PSC Alumni Association Gifts totaling $398.50 from the Portland State College Alumni Association, to be used as follows:

$100 - To apply to student loans
$298.50 - To purchase a clay mixer for the Art Department.
Meeting #291-37

December 13, 1960

Multnomah County Board of Commissioners

Gift of photostats of Multnomah County election results on candidates and issues by precinct, from 1950 to the present, from the Multnomah County Board of Commissioners, Portland. The gift to the Political Research Bureau is valued at $4,000.

Gifts to the Library

Gifts to the Portland State College Library from various donors as follows:

Mrs. John M. Trux

Gift of 92 volumes in the field of American and English fiction, valued at $100, from Mrs. John M. Trux, Portland.

Mrs. R. Morin

Gift of 33 volumes of books and portfolios in architecture and allied arts, valued at $200, from Mrs. Roi Morin, Portland.

Mr. C. McKinley

Gift of a collection of materials on natural resources and related political procedures from Mr. Charles McKinley, Portland, Oregon. The collection, valued at $100, is composed primarily of unbound government documents.

Mr. R. M. Mitchell

Gift of 84 volumes, valued at $200, from Mr. Robert M. Mitchell, Portland. The gift is a collection of scholarly works on music, with a few volumes on science and foreign language.

Oregon College of Education

U. S. Dept. of Health, Education and Welfare

OCE Alumni Association

Gift of $1,405 from the Oregon College of Education Alumni Association as part of the matching funds for grants from the National Defense Education Act Loan Fund.

Oregon Congress of Parents and Teachers, Inc.

Gift of $1,092 from the Oregon Congress of Parents and Teachers, Inc., Portland, to provide scholarships for prospective elementary school teachers for the fall term of 1960.

Eastern Oregon College

Scholarships & Fellowships

Gifts totaling $7,161 from the following donors for scholarships and fellowships:

- Elks National Foundation, Boston, Massachusetts $600.00
- Beta Sigma Phi, Milton-Freewater 100.00
- Elks Lodge No. 433, La Grande 225.00
- Elks Lodge No. 1862, Hillsboro 100.00
- Cornelia Marvin Pierce Estate, Salem 5,000.00
- Oregon State Grange, Portland 200.00
- California-Pacific Utilities Co., La Grande 936.00
Mr. & Mrs. H. Derry

Gift of a collection of agates and other rocks, valued at $20,000 to $25,000, from Mr. and Mrs. Henry Derry, Vale. The collection is to be designated as the "Henry and Bea Derry Rock Collection", and was transferred to the College upon the recent death of Mr. Derry.

Oregon Technical Institute

Scholarships & Fellowships

Gifts totaling $4,050 from the following donors for scholarships and fellowships (unless otherwise designated, donors are in Klamath Falls):

- Pacific Trailways, Bend
- Klamath Billiards & Chuck Wagon Cafe
- Dick Raeder's Store for Men
- Asphalt Paving Company
- Crater Lake Machinery Co.
- Payless Drug Store
- Medo-Bel Creamery
- Moty and Van Dyke
- Schuss Wholesale Grocery Co., Portland
- Home Lumber and Supply Co.
- Medo-Land Creamery Co.
- Specialized Service Company
- Mr. Howard Perrin
- Triangle Lake Parent-Teacher Association, Blachly
- South Santiam Educational and Research Project through the Oregon State College Foundation
- The Britt Memorial Scholarship Fund, Medford
- Quots Club
- Klamath-Trinity Unified School District, Humboldt County, Hoopa, California
- Grand Guardian Council, Order of Jobs Daughters, Beaverton
- Shaw Stationery Company

Crater Lake Machinery Company

Gift of a Turbocharger, valued at $1,500, from the Crater Lake Machinery Company, Klamath Falls, Oregon, to be used as instructional equipment in the Auto-Diesel Division.

Chrysler Corporation

Gift of one 1960 Dodge truck engine and one 1960 Dodge passenger car three-speed transmission, valued at $270, from the Portland Regional Office of the Chrysler Corporation through Mr. Joe Fisher (Dodge Authorized Sales and Service), Klamath Falls. The equipment is to be used for instructional purposes in the Auto-Diesel Division.

Cadillac Motor Car Division, General Motors Corp.

Gift of two Cadillac air-conditioning compressors and one windshield wiper motor, valued at $225, from the Cadillac Motor Car Division, General Motors Corporation, Detroit, Michigan. The equipment is to be used for instructional purposes in the Auto-Diesel Division.

ADJOURNMENT

The meeting adjourned at 11:15 A.M.

Henry F. Cabell, President

Earl M. Pallett, Secretary
Summary comments related to the attached supporting exhibits, patterned after a similar report prepared in December 1959, are as follows:

Comments Related to Exhibit A

1. Married student enrolment data have been limited to information pertaining to male students only.

2. For the six institutions included in the report, approximately 24 per cent of the male students are married. The smallest percentage is at Eastern Oregon College where 21 per cent of the male students are married, and the largest percentage is at Oregon Technical Institute where 28 per cent of the male students are married.

3. If all of the family housing facilities at the six institutions, including miscellaneous rental properties, were used for married men students only, then approximately 29 per cent of such students could be accommodated, ranging from 11 per cent at Oregon State College to 81 per cent at Oregon Technical Institute.

4. Institutional family housing facilities are being used predominantly by married students. There are a few property rentals which are more suitable for other tenants. At the regional colleges and Oregon Technical Institute, a substantial percentage of the units is being used by occupants other than married men students.

5. The typical rental rates at each institution are intended to recognize the local situation in the community in which the campus is located.

Comments Related to Exhibit B

1. The percentage of married male students is highest among graduate students, including graduate assistants and fellows, and decreases with each lower class down to the freshman group. The percentage of undergraduate students who are married is higher at the regional colleges and Oregon Technical Institute than at either the University of Oregon or Oregon State College.

2. The percentage of married male students living in family housing facilities at the six institutions averages 22 per cent, ranging from 9 per cent at Oregon State College to 41 per cent at Eastern Oregon College and 51 per cent at Oregon Technical Institute. At the University of Oregon, 33 per cent of the married male students are living in institutional family housing facilities.
Comments Related to Exhibit C

1. The percentage of married male students at all of the institutions was 24 per cent during the fall of 1960 as compared with 25 per cent a year earlier. During the interval of one year, there was a decrease in the percentage of married male students at each institution except that at Oregon State College there was a 1 per cent increase.

2. At each of the regional colleges and at Oregon Technical Institute, the actual number of married male students decreased between the fall term of 1959 and that of 1960.

General Comments

1. Except at the University of Oregon where 48 new apartments were completed for initial occupancy during the fall term 1960, the present housing facilities for married students on all campuses consist primarily of temporary war surplus buildings obtained from the federal government. In addition, properties have been acquired within the campus boundaries of the institutions, including residences of varying ages and conditions. In general, the war surplus buildings are deteriorating rapidly. Many of the residences are quite old, but they are generally in fair condition.

2. At the University of Oregon and at Oregon College of Education, some of the married student housing units are being used temporarily as annexes to dormitories for single students.

3. Contracts have been awarded for the construction of 68 additional married student apartments at Oregon State College and these are expected to be available for occupancy by the fall term 1961.

4. On December 8, 1959, the Board established a policy which provides that when new housing facilities are proposed by an institution, a formal occupancy policy applicable to the new housing is to be presented to the Board for review and approval. Such a policy might, for example, indicate that, to the extent practical, priority will be given first to graduate and research assistants and fellows, then to institutional personnel for a designated maximum period of time, then to other graduate students, seniors, and juniors, in that order.

5. At the University of Oregon and Oregon State College, a preference policy provides priority of assignment to graduate assistants and teaching fellows, other graduate students, seniors, and juniors, in that order.

*OTI became a part of the State System of Higher Education July 1, 1960.*
ADMISSION TO FRESHMAN STANDING IN THE STATE SYSTEM OF HIGHER EDUCATION

At the January 1957 meeting, the Board of Higher Education approved an Admissions Plan for Oregon high school graduates entering Oregon State College, the University of Oregon, Portland State College, Oregon College of Education, Eastern Oregon College and Southern Oregon College. In accordance with that plan, graduates of standard Oregon high schools with a minimum grade average of "C" or a satisfactory score on a scholastic college aptitude test or a specified grade-point average on a planned summer session program were admitted to freshman standing. The report of the first three years of operation is indicated below.

Admission of Oregon High School Graduates to Institutions in the State System

</tbody>
</table>

The above figures indicate that 4.3 per cent of the applicants during 1958-59, 7.3 per cent for 1959-60, and 4.5 per cent for 1960-61 were denied admission.

The admissions plan which has been in operation during the past three years was recommended to the Board primarily to establish the principle of selective admission. During the period of its operation all parties concerned have learned a great deal. It is operating smoothly and effectively. The percentage denied has been lower than was anticipated from the original studies of the problem. The difference may be considered as one measure of success of the program, since it reflects the ability of the high schools to discourage applications from ineligible students. The plan is simple in operation, easily understood, and can be made more selective at any time that the Board decides it is desirable to do so. Although the number of individuals currently denied admission is not very large, a greater percentage of the ones who are admitted have a better chance to do successful college work than was true prior to the adoption of this plan.

Recently, the Interinstitutional Admissions Committee examined in detail the results for the past three years. On the basis of the studies on which our present practices are based, not more than 15 per cent of the applicants who were denied admission would have been able to achieve a "C" average in college and less than 10 per cent would have completed two years of college work. The success of individuals who attempted to qualify on the basis of attendance at a summer session has varied from school to school, but the over-all rate of success has been less than the predicted rate (15 per cent).
The effect of the selection program on the performance of students who were admitted is not as clearly evident as it is for those denied admission. Several factors operate to obscure evidence of any change in student performance:

1. The number of students denied admission is small, so that the impact of their removal from the total student body in terms of changes in average performance is correspondingly small.

2. The announcement of the new admission program had a demonstrable impact on student attitudes. The evidence shows that there was a tendency for students to begin changing their work patterns almost immediately after the announcement.

3. The mere existence of a barrier sets up what may be described as a "Hurdle Phenomenon". Students with borderline records who might not have enrolled previously now feel they must apply to demonstrate their ability to be admitted. This was not previously an issue. A substantial number of those so applying have actually enrolled. These students, while above the minimum, are generally below average in ability. An analysis of the distributions of ability at one institution shows a reduction in the number of very low ability students, an increase in the number of below average students, and no change in the number of high ability students.

4. The faculty has a tendency to grade Freshmen on a comparative basis, so that minimal changes in ability level do not have a significant influence on average freshman grades.

In view of these considerations, the actual changes noted should be considered as conservative indicators of the impact of the admissions plan. Comparison of the 1957 and 1958 classes yielded the following:

1. The high school grade averages and test results of the members of the 1958 entering classes at the several institutions were, with one exception, higher than the entering classes for 1957.

2. There was a reduction in placement in remedial courses in 1958 when standards for placement were constant for the two years.

3. No trend is evident in grading or disciplinary action, although there is an indication that some of the faculties were tightening up on their policies concerning academic deficiencies.
