

June 21, 2005

Dear Colleague,

The success of the Excellence in Delivery and Productivity Working Group has been built upon the commitment and efforts of many individuals representing campuses and organizations throughout the state. We wish to recognize your tireless efforts taking up the charge to provide a meaningful college experience to more Oregonians. Your dedication to student access and success has been truly inspirational. Thank you for your continued work.

The May 23, 2005, Excellence in Delivery and Productivity Working Group meeting focused on reporting the significant areas of progress in meeting the Working Group's charge: Creating an educational platform that was student-centered, statewide in its delivery and impact, and collaborative in design and implementation. This platform must serve all students regardless of race, income, age, gender, or location.

A comprehensive review of the Working Group's success and impact will be provided in the form of a comprehensive report at a later State Board of Higher Education meeting.

Sincerely,
